

"Afghan Refugees Ministry" Q&A

Q: What is the current distribution of Afghan refugees? Where are the refugee groups that GIU workers serve?

A: Afghan refugees are mainly distributed in Pakistan and Iran. Pakistan is estimated to have 1.7 million undocumented refugees, Iran has 780,000 undocumented refugees, and a small number of refugees are distributed in Turkey, Germany, Austria, Greece, France, Sweden, Switzerland, India, Italy, the United Kingdom, Australia, Belgium, Indonesia, and other places. GIU workers of this ministry currently serve on the Pakistani border.

Q: How does GIU (Galilee International US) carry out refugee relief work?

A: GIU has sent frontline workers to Pakistan and started to help some refugee families. The plan is to help 30 refugee families (including families in the Lord) for a long time, provide them with living accommodation, train vocational skills, establish long-term relationships, and share the love of Christ with them through spiritual care, counseling and other services.

Q: What is the current situation of Afghan Christians?

A: As the Taliban have a list of local Christians and pursue them, some Afghan Christians who have worked in American companies, private companies, educational institutions, embassies, and some church leaders have fled Afghanistan; there are still Church leaders and Christians in hiding, and some of them plan to flee the country in the future.
